

ELANTRA *Sport*

SERIOUS POWER AND PRECISION

Sport-enhanced design cues are only the beginning. A 201 horsepower 1.6L turbocharged engine makes the Elantra Sport the most powerful Elantra yet, but power is nothing without precision.

At the core is the SUPERSTRUCTURE™.

Constructed of our Advanced High Strength Steel to deliver an ultra-rigid frame that allowed even greater precision when tuning the key suspension components, so that when we outfitted and sport-tuned the Elantra Sport with an independent multi-link rear suspension...you would feel it.

1 1.6L TURBOCHARGED GDI ENGINE

The Elantra Sport is powered by a 1.6L Turbo Gasoline Direct Injection (GDI) four-cylinder engine generating 201 horsepower and 195 lb-ft of torque. Choose between a 6-speed manual or available 7-speed Dual Clutch Transmission with paddle shifters.

2 PERFORMANCE-INSPIRED DETAILS

Detailed sport accents run along the front dash of the Elantra Sport. To complement this, the sportier cabin also features a black headliner, blacked out trim along the shifter and door handles, and a supervision sport cluster for all your gauges.

3 AGGRESSIVE FRONT GRILLE

The unique front bumper design sets the tone with sharp body lines that frame an aggressive black and chrome front grille. An exclusive "Turbo" badge makes a statement.

4 BLACK LEATHER SPORT SEATS WITH RED STITCHING

The seating in the Elantra Sport features more heavily bolstered leather front seats with detailed red stitching.

5 DISTINCTIVE REAR BUMPER

Twin-tip exhaust outlets and a diffuser seamlessly integrate into the rear bumper, delivering outstanding style and a riveting sound.

6 BOLD LIGHTING

Exclusive to the Elantra Sport, the blacked out headlight housing design sets the tone for standard HID headlights. Horizontal LED daytime running lights accentuate the aggressive front grille and exclusively designed LED tail lights add extra flare and increased visibility.

7 HEATED LEATHER D-CUT STEERING WHEEL

The Elantra Sport features a leather-wrapped D-cut steering wheel that is heated for ultimate comfort and warmth during our Canadian winters. Standard steering wheel-mounted controls also make it easy to access your audio, phone and cruise control settings at the press of a button.

8 RIDE AND HANDLING

To ensure that the most powerful Elantra ever is also the most fun to drive, the Elantra Sport is exclusively outfitted with an independent multi-link rear suspension designed to elevate on-road dynamics and feel. Standard 18" alloy wheels and larger front brakes add to the dynamic feel on the road and sporty look.

MODEL SUMMARY

ELANTRA SPORT

STANDARD EQUIPMENT INCLUDES:

1.6L Turbocharged GDI engine
Twin-tip exhaust outlet
6-speed manual transmission
Multi-link rear suspension
Sport-tuned suspension and steering
Tilt-and-telescopic steering
Airbags (7): Driver's knee (1), front impact (2), front seat-mounted side impact (2), front/rear side curtains (2)
Vehicle Stability Management, Electronic Stability Control and Traction Control System
Anti-lock Braking System with Brake Assist, Electronic Brake-force Distribution
Blind Spot Detection with Rear Cross-Traffic Alert
18" alloy wheels
Projection headlights
HID headlights
LED daytime running lights
LED side mirror turn signal repeaters
LED tail lights
Power-adjustable, heated side mirrors
Power sunroof
Black interior headliner

TECH PACKAGE

8.0" touch-screen navigation system
8-speaker Infinity® audio system with external amplifier
Auto-dimming rearview mirror with Homelink® and compass

INCLUDES ELANTRA SPORT STANDARD EQUIPMENT PLUS:

Leather sport seats
Heated front seats
Rear seat 60/40 folding with up/down headrest and centre cup holder
Power windows with driver's auto-up/down
Exclusive aluminum door trim plates
Heated, D-cut leather steering wheel
Alloy sport pedals
Proximity key with push-button ignition
Hands-free Smart Trunk
7.0" audio display with Android Auto™ and Apple CarPlay™
Rearview camera with dynamic guidelines
Bluetooth® hands-free phone system
Steering wheel-mounted audio, cruise and Bluetooth® controls
3.5" monochromatic supervision cluster display
Cruise control
Low washer fluid warning light
Manual air conditioning
Optional: 7-speed Dual Clutch Transmission with steering wheel-mounted paddle shifters and Drive Mode Select
Rear Park Assist System
Dual-zone automatic temperature control with auto defogger
Optional: 7-speed Dual Clutch Transmission with steering wheel-mounted paddle shifters and Drive Mode Select

SUPERSTRUCTURE™

The world's greatest engineering achievements all begin with one thing: a strong foundation. The SUPERSTRUCTURE™ is the state-of-the-art platform that lies at the core of the Elantra lineup.

Building upon this ultra-rigid chassis, Hyundai engineers set out to achieve a new standard in handling precision, ride comfort, interior quietness and safety.

ELANTRA
Sport

SUPERHANDLING

The rigid composition of the SUPERSTRUCTURE™ enables more precise tuning of key suspension components. Experience superior cornering stability, precise handling performance and confidence at higher speeds.

SUPERQUIET

Enhanced interior soundproofing is another benefit of the SUPERSTRUCTURE™. Extended application of soundproofing materials and increased steel rigidity reduce noise and vibration levels in the cabin. Whether you are navigating dense city traffic or cruising Canada's wide-open highways, enjoy greatly reduced noise and vibration levels.

SUPERSAFETY

Over half of the SUPERSTRUCTURE™ is comprised of our Advanced High Strength Steel for exceptional stiffness and strength and features extended application of structural adhesives to reinforce critical areas. In the event of a collision, the SUPERSTRUCTURE™ helps protect occupants inside the vehicle by absorbing harmful energy and redirecting it away from the passenger compartment.
