

All-New **VELOSTER**

2019

Veloster SUPERSTRUCTURE™,
made with our Advanced High Strength Steel

The H-Factor.

What is the H-Factor? It means you can have it all.

Our company believes in pushing the boundaries and challenging conventional thinking. Our very name, “Hyundai”, stands for modernity in the Korean language and it is this one word that helps represent everything we stand for. We don’t approach vehicle development in a traditional way. Our company is structured differently. We think differently. We find the modern way. It’s our mission to offer top quality, feature-rich vehicles at an affordable price.

We offer elite quality through meticulous design and painstaking craftsmanship. Our three design centres in Korea, the U.S. and Europe compete against each other to bring you cutting-edge designs — designs that not only look stunning but are also aerodynamic and fuel efficient.

We are the only global automaker to manufacture our own steel because, simply put, we just weren’t satisfied with what was available.

We test our vehicles in areas like Canada’s Arctic, our proving grounds in the Mojave Desert and on Germany’s world-famous Nürburgring circuit to deliver the durability and reliability you demand. And not only do we package our vehicles with advanced safety and technology, we back all our vehicles with one of the best automotive warranties in the industry. This means you really can have it all, quality and value together.

That’s the H-Factor.

Live loud.

Live loud in the all-new Veloster. Cutting-edge exterior and interior design, the choice between two engine options, and an array of new technology and connectivity features are what make this sports coupe such an exciting driving experience.

3 doors. 1 signature look. The hidden rear door on the passenger side gives easy access to the rear seat. With no visible door handle, it maintains the sleek, coupe style body lines of the Veloster.

Bold new look.

Designed to break loose from the pack, the asymmetrical 3-door design of the Veloster differentiates it from any vehicle on the road. The one-of-a-kind style features a wide cascading grille, standard 18" alloy wheels and a centre exhaust. Available LED headlights emit a strong, focused beam of white light that greatly increases nighttime visibility. LED accents run along the outer edges to accentuate the sculpted bodylines.

Wide cascading grille

Available LED headlights

Available LED tail lights

Standard 18" alloy wheels

High performance standards.

Whether you choose the 2.0L or the 1.6L Turbocharged engine, you're going to feel what sets the Veloster apart. A sophisticated, standard multi-link rear suspension system elevates on-road driving dynamics and feel. Turbo models are also outfitted with a sport-tuned suspension for outstanding ride and handling through the curves.

Torque Vectoring Control

Delivering a deeper driver-to-machine connection, Torque Vectoring Control (TVC) comes alive when the road turns twisty and you want improved performance in the corner. With sophisticated wheel-speed sensors at work, TVC applies precision-level braking to the inside front wheel as the Veloster navigates a turn. By minutely slowing that inside wheel, engine power is better used by the front wheel on the outside of the turn to improve grip and stability through each and every curve of the road. It makes the Veloster feel planted and agile.

Standard 2.0L engine

- Standard 6-speed manual transmission
- Available 6-speed automatic transmission

147 horsepower
132 lb-ft torque

Available 1.6L Turbocharged engine

- Standard 6-speed manual transmission
- Available 7-speed dual clutch transmission with paddle shifters

201 horsepower
195 lb-ft torque

The Turbo Tech model features Active Sound Design, which enhances intake and exhaust powertrain sound character inside the cabin for a more exhilarating driving experience, especially during spirited driving.

An exciting drive begins in the driver's seat.

Continuing its asymmetrical design into the cabin, the Veloster looks just as good from the inside. A driver-focused interior layout features contrasting finishes in the driver's seat area, and the centre console is strategically placed for optimal access.

Standard heated steering wheel

Standard heated front seats

Available wide power sunroof

Available sport gauge cluster

Turbo Tech model shown.
May not be exactly as shown.

Seamless connectivity and advanced technology at your fingertips.

Head-Up Display

The available Head-Up Display projects important information like speed and navigation commands within your line of sight — so you can keep your eyes on the road. Change your drive mode to “Sport” and your speed display changes to a sports-inspired tachometer design.

8.0" touch-screen shown.

Apple CarPlay™ and Android Auto™

Standard Apple CarPlay™ and Android Auto™ let you interact with your favourite apps, access navigation, use voice command for text messages, or stream your favourite songs through the available Infinity® sound system. An available 8.0" touch-screen provides added convenience with a built-in navigation system, so you don't have to use your cellular data when needing directions.

Available rain-sensing wipers

Available proximity keyless entry with push-button ignition

Available Infinity® audio system with 8 speakers

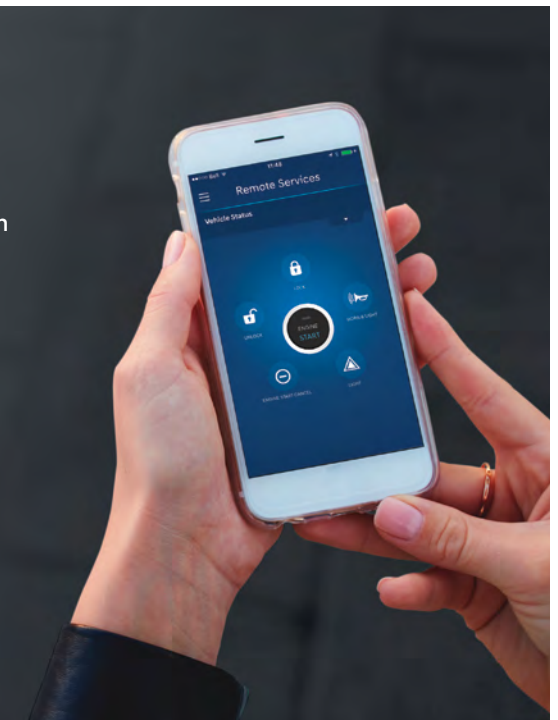

Wireless charging pad*

Located in the centre console, an available wireless charging pad lets you easily charge a compatible smartphone without the use of messy and unsightly cables.

Features include:

- ✓ Complimentary 5-Year subscription with select models
- ✓ Available Remote Start with Climate Control
- ✓ Remote Lock/Unlock
- ✓ Find My Car
- ✓ SOS Emergency and Roadside Assistance
- ✓ Automatic Collision Notification
- ✓ Local Search powered by Google™

BlueLink®

Hyundai is proud to introduce BlueLink® to enhance your safety, service and entertainment experience. BlueLink® brings seamless connectivity directly into your car and can be easily accessed with a web connection, smartphone app or by using the control interface on your rearview mirror.

Advanced safety.

The 2019 Veloster features an ultra-rigid vehicle chassis at its core, which we call the SUPERSTRUCTURE™. Built with our very own Advanced High Strength Steel, which is designed to be stronger, stiffer and lighter than conventional steel, the SUPERSTRUCTURE™ provides greater benefits in safety, ride comfort, handling and fuel economy. In the event of a collision, the SUPERSTRUCTURE™ helps protect occupants inside the cabin by absorbing harmful energy and redirecting it away from the passenger compartment.

Blind Spot Detection with Lane Change Assist¹

The standard Blind Spot Detection system uses radar to detect when a vehicle is in the driver's blind spot and provides both an audible and visual alert to keep you safe as you move down the road. This feature works in conjunction with the Lane Change Assist system, which measures the closing speed of traffic approaching in adjacent lanes to help determine if a lane change is safe.

Rear Cross-Traffic Alert²

Activated during reverse driving, the standard Rear Cross-Traffic Alert system uses radar to help identify and warn the driver of vehicles approaching from the side, even before they come into view of the standard rearview camera.

Rearview camera with dynamic guidelines

Back up with ease using the standard rearview camera. The dynamic guidelines help to indicate your proximity to objects behind you.

Rear Parking Assist Sensors

In addition to the standard rearview camera, the available Rear Parking Assist Sensors provide even greater stress relief when reversing. Sensors mounted in the rear bumper set off audible alerts, with increasing frequency, as you move closer to objects behind you.

Colours

Exterior colours*

Chalk White

Lake Silver

Dark Night

Accessories

Side Visors

Complement your vehicle with a sleek and durable set of side visors that will help reduce glare while providing you with fresh air. Custom made for your vehicle using high quality reinforced tinted acrylic plastic, these visors will look good on your vehicle for years to come.

Premium All Weather Floor Liners

Premium all weather floor liners were designed to cover the interior carpet providing maximum protection against the elements that other mats cannot offer. Their unique and durable design features a non-slip surface for added comfort and a long lasting premium look. Remove carpet mats prior to installation.

Hyundai WarmUp System

Keep the inside of your car warm in winter months without using a drop of fuel! The Hyundai WarmUp System includes an interior cabin heater and a fully programmable display unit as well as an integrated battery charger.

Multimedia Device Holder

This multimedia device holder allows your backseat passengers to have in-seat entertainment using a mobile phone or a tablet device. Features 360° rotation to allow use in portrait or landscape layout, hands free. The included mounting bracket easily fits to the headrest and the device holder is removable when not in use.

Rear Bumper Protector Film

Protection film easily applies to protect from scratches and scrapes while maintaining the visual appearance of your vehicle.

Mud Guard Kit

Custom-fit mud guards help keep the dirt and debris of everyday driving where it belongs.

Wheel Lock Nuts

Help protect your valuable wheels and tires from theft with a set of Hyundai wheel lock nuts.

Steel Wheel

Mount your winter tires on a set of Hyundai steel wheels and spare your alloy wheels from the corrosion caused by salt and slush.
