

All-new
ELANTRA

2021

A bit about us.

With Hyundai, you can really have it all.

Our company believes in pushing the boundaries and challenging conventional thinking. Our very name, "Hyundai", stands for modernity in the Korean language and it is this one word that helps represent everything we stand for. We don't approach vehicle development in a traditional way. Our company is structured differently. We think differently. We find the modern way. It's our mission to offer top quality, feature-rich vehicles at an affordable price.

We offer elite quality through meticulous design and painstaking craftsmanship. Our three design centres in Korea, the U.S. and Europe compete against each other to bring you cutting-edge designs — designs that not only look stunning but are also aerodynamic and fuel efficient.

We are the only global automaker to manufacture our own Advanced High-Strength Steel because, simply put, we just weren't satisfied with what was available.

We test our vehicles in areas like the Arctic, our proving grounds in the Mojave Desert and on Germany's world-famous Nürburgring circuit to deliver the durability and reliability you demand. And not only do we package our vehicles with advanced safety and technology, we back all our vehicles with one of the best automotive warranties in the industry. This means you really can have it all, quality and value together.

Elantra SUPERSTRUCTURE™ shown,
made with our Advanced High-Strength Steel.

Stay connected and protected.

There's no mistaking the all-new 2021 Elantra. With a distinctive lower and wider profile, the aggressive design sets a new standard for sportiness in compact sedans.

With a huge range of available technology features like wireless Apple CarPlayTM and Android AutoTM, the Elantra is an extension of you — making it effortless to stay connected wherever you go.

But the smart technology doesn't just keep you connected, it also helps keep you protected. With advanced Hyundai SmartSenseTM features, like available Forward Collision-Avoidance Assist with Pedestrian, Cyclist and Junction-Turning Detection¹ — you feel protected and confident behind the wheel.

Striking all-new design.

Our designers have a name for the bold stylings of the all-new Elantra — they call it “Parametric Dynamics.” What that means for you is a striking grille that seamlessly integrates into the headlight architecture. Along the sides, distinctive lines converge, giving a unique, three-dimensional look. Rounding out the bold style are a sleek-edged trunk lid and connected tail light design, adding to the confident new appearance.

Three-dimensional “Parametric Dynamics” design lines

Available LED tail lights

Available LED headlights
Available 17" alloy wheels

New style. New comfort.

The cockpit-inspired, wraparound design in the all-new Elantra elevates your drive. The sleek touch-screen display is tilted 10 degrees towards the driver, giving better sightlines and access from behind the wheel.

A number of available features are customizable to your liking, including the 8-way power driver's seat, the interior ambient lighting with 64 colour choices and the dual-zone climate control. You can even adjust the depth of the cup holders to better fit your favourite coffee cup or extra-tall water bottle.

Ultimate model with Tech package shown.
May not be exactly as shown.

Available heated rear seats
Available interior ambient lighting
(64 colour choices)

Standard heated front seats and
available heated steering wheel
Available dual-zone climate control

Technology to transform your drive.

The features offered in the all-new Elantra are nothing short of impressive. When you step inside — using the available proximity key, of course — you are greeted by a sleek, available digital gauge cluster flowing into the available 10.25" touch-screen display. Add in the available wireless charging pad▼ and the available Bose® sound system, and you'll know what we mean by "transform your drive."

Available 10.25" full digital instrument cluster

Hyundai SmartSense™

Our suite of available Hyundai SmartSense™ safety features includes a range of camera, radar and motion detection technologies to provide you with added peace of mind.

The all-new Elantra features a wealth of them to help keep you protected on the road, including Forward Collision-Avoidance Assist with Pedestrian, Cyclist and Junction-Turning Detection¹. This available safety feature is designed to detect a vehicle, pedestrian or cyclist and warn the driver of a potential frontal collision. If the driver does not react to avoid impact, the system can apply emergency braking under certain conditions. This advanced technology also includes a junction-turning component to help make left turns at an intersection safer.

Available features:

Forward Collision-Avoidance Assist (FCA) with Pedestrian Detection

FCA with Pedestrian, Cyclist and Junction-Turning Detection

Parking Collision-Avoidance Assist - Reverse

Highway Driving Assist with Highway Auto Curve Slowdown

Adaptive Cruise Control with traffic stop and go

Rear Occupant Alert

Blind-Spot Collision-Avoidance Assist

Rear Cross-Traffic Collision-Avoidance Assist

Driver Attention Warning

Lane Departure Warning with Lane Keeping Assist

Lane Following Assist

High Beam Assist

Safe Exit Warning

Parking Distance Warning - Reverse

Ultimate convenience. Ultimate connectivity.

Bluelink® is our connected vehicle system that is available throughout our vehicle lineup. The advanced system conveniently keeps you connected with your Hyundai via the smartphone app, and offers a suite of services at the press of a button. Visit hyundaicanada.com/bluelink or see your dealer for more information on the complete list of innovative features that Bluelink® puts at your fingertips.

Accessories.

Accessory frame

An accessory frame makes it quick and easy to attach hitch-mounted cargo equipment, such as bikes and ski racks. Frame not intended for towing.

Door pocket clear film

A clear protective film that lies behind the door handle to help prevent paint damage to this commonly scratched area.

Mud guard kit

Custom-fit mud guards help keep the dirt and debris of everyday driving where it belongs.

Premium all-weather floor liners

Premium all-weather floor liners were designed to cover the interior carpet, providing maximum protection against the elements that other mats cannot offer. Their unique and durable design features a non-slip surface for added comfort and a long-lasting premium look. Remove carpet mats prior to installation.

The Bluelink® service is available for new vehicle purchases and leases subject to the Bluelink® subscription terms and conditions. Only use Bluelink® and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications, and fees may vary by model and are subject to change. For more on details and limitations, visit hyundaicanada.com or your authorized Hyundai dealer. [◆]Forward Collision-Avoidance Assist (FCA) is designed to detect vehicles, pedestrians or cyclists (depending on the specific FCA type with which the vehicle is equipped) that are directly in front of the vehicle. FCA will not detect all vehicles, pedestrians, cyclists or other objects (as applicable). FCA will not work on winding or hilly roads, during certain weather conditions such as rain, snow, fog and any other times of limited visibility. The speed at which FCA initiates full braking depends on the type of FCA system equipped on the Elantra. FCA initiates full braking at speeds between 10 and 60 km/h (vehicle detection) or 10 and 60 km/h (pedestrian detection) if the Elantra is equipped with the FCA "camera type" system. FCA initiates full braking at speeds between 10 and 75 km/h and 10 and 85 km/h (vehicle detection, depending on whether vehicle ahead is in motion) or 10 and 65 km/h (pedestrian detection) or 10 and 65 km/h (cyclist detection) if the Elantra is equipped with the FCA "camera and radar type" system. FCA will not detect all vehicles, pedestrians and cyclists under certain conditions. Junction-Turning Detection (JTD) provides audible warnings if the system recognizes potential risk of collision with an oncoming vehicle and will automatically apply brakes depending on the collision level. JTD will operate when the driver turns left, if your vehicle's turn signal is on and vehicle speed is between 10 and 30 km/h, and oncoming vehicle's speed is between 30 and 70 km/h. See Owner's Manual for detailed descriptions of example conditions in which FCA may not detect a vehicle, pedestrian or cyclist, or JTD will not detect oncoming vehicle. FCA and JTD are not substitutes for safe driving. Always check your surroundings when driving. See Owner's Manual for further details and limitations. [■]Not all devices will be compatible. See Owner's Manual for further details. Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc.. HomeLink® is a registered trademark of Johnson Controls Inc..
